

**“GeneLab Microarray Processing Pipeline and Workflows”** details each step in GeneLab's standard pipeline for processing Microarray data derived from different platform types. These processing pipelines have been wrapped into Nextflow workflows that utilize Singularity containers. Instructions for installing and implementing the Nextflow workflows are included.

The “**GeneLab Microarray Processing Pipeline and Workflows**” program is free software; you can redistribute it and/or modify it under the terms of the GNU General Public License as published by the Free Software Foundation; either version 3 of the License, or (at your option) any later version. Portions of the program are subject to additional requirements.

The “**GeneLab Microarray Processing Pipeline and Workflows**” program is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU General Public License for more details.

You should have received a copy of the GNU General Public License along with the “**GeneLab Microarray Processing Pipeline and Workflows**” program; if not, see <https://www.gnu.org/licenses>.

In addition, the following additional requirements under GNU GPL version 3 section 7 (a) through (f) (as applicable) supplement the terms of the GNU GPL version 3 for the portion of the “**GeneLab Microarray Processing Pipeline and Workflows**” Program authored by the

United States Government as represented by the NASA Administrator, and modified versions thereof (the “NASA **“GeneLab Microarray Processing Pipeline and workflows”** Program”). These additional requirements are not considered “further restrictions” within the meaning of Section 10 and therefore may not be removed. The rights granted to you in the NASA **“GeneLab Microarray Processing Pipeline and Workflows”** Program herein are conditioned upon inclusion of these additional requirements when you convey the NASA **“GeneLab Microarray Processing Pipeline and Workflows”** program, or a work based on the NASA **“GeneLab Microarray Processing Pipeline and Workflows”** program hereunder.

Additional Requirements:

Consistent with section 7(a), the following DISCLAIMER OF WARRANTIES AND LIABILITIES and WAIVER terms apply, replacing sections 15 and 16 of the GNU GPL version 3:

- A. Disclaimer of Warranties and Liabilities: THE NASA **“GENELAB MICROARRAY PROCESSING PIPELINE AND WORKFLOWS”** PROGRAM IS PROVIDED “AS IS” WITHOUT ANY WARRANTY OF ANY KIND, EITHER EXPRESSED, IMPLIED, OR STATUTORY, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTY THAT THE NASA **“GENELAB MICROARRAY PROCESSING PIPELINE AND WORKFLOWS”** PROGRAM WILL CONFORM TO SPECIFICATIONS, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR FREEDOM FROM INFRINGEMENT, ANY WARRANTY THAT THE NASA **“GENELAB MICROARRAY PROCESSING PIPELINE AND WORKFLOWS”** PROGRAM WILL BE ERROR FREE, OR ANY WARRANTY THAT DOCUMENTATION, IF PROVIDED, WILL CONFORM TO THE NASA **“GENELAB MICROARRAY PROCESSING PIPELINE AND WORKFLOWS”** PROGRAM. THIS AGREEMENT DOES NOT, IN ANY MANNER, CONSTITUTE AN ENDORSEMENT BY GOVERNMENT AGENCY OR ANY PRIOR RECIPIENT OF ANY RESULTS, RESULTING DESIGNS, HARDWARE, SOFTWARE PRODUCTS OR ANY OTHER APPLICATIONS RESULTING FROM USE OF THE NASA **“GENELAB MICROARRAY PROCESSING PIPELINE AND WORKFLOWS”** PROGRAM. FURTHER, NASA DISCLAIMS ALL WARRANTIES AND LIABILITIES REGARDING THIRD-PARTY SOFTWARE, IF PRESENT IN THE ORIGINAL SOFTWARE, AND DISTRIBUTES IT “AS IS.”
- B. Waiver: RECIPIENT AGREES TO WAIVE ANY AND ALL CLAIMS AGAINST THE UNITED STATES GOVERNMENT, ITS CONTRACTORS AND SUBCONTRACTORS, AS WELL AS ANY PRIOR RECIPIENT. RECIPIENT'S SOLE REMEDY FOR ANY SUCH MATTER SHALL BE THE IMMEDIATE, UNILATERAL TERMINATION OF THIS AGREEMENT.

If a Recipient conveys the NASA **“GeneLab Microarray Processing Pipeline and Workflows”** Program (or modified versions of it) with contractual assumptions of liability to downstream Recipients, such Recipient shall indemnify NASA for any liability that said contractual assumptions of liability directly impose on NASA.

Use of the NASA Name and Insignia is governed by 51 U.S.C. § 20141, 14 CFR Section 1221.1, and associated policy. A Recipient may not make any representation in the NASA **“GeneLab Microarray Processing Pipeline and Workflows”** Program or in any promotional, advertising or other material that may be construed as an endorsement by NASA or by any prior Recipient of any product or service provided by Recipient, or that may seek to obtain commercial advantage by the fact of NASA's or a prior Recipient's participation in this Agreement.

Notwithstanding any provisions contained herein, Recipient is hereby put on notice that export of any goods or technical data from the United States may require some form of export license from the U.S. Government. Failure to obtain necessary export licenses may result in criminal liability under U.S. laws. NASA neither represents that a license shall not be required nor that, if required, it shall be issued. Nothing granted herein provides any such export license.
